

## **FOR IMMEDIATE RELEASE**

### **Announcing the Launch of the New Website – [www.HuckGroupInc.com](http://www.HuckGroupInc.com)**

Naples, Fla. – July 24, 2008 – The Huck Group is announcing the launch of their new website that enables visitors to explore their full breadth of capabilities and expansive product line.

The Huck Group is a premier manufacturer of retail display fixtures and products. It is a privately held corporation, with executive offices located in Naples, Florida. Huck's manufacturing headquarters is located in Quincy, Illinois, where the company was founded in 1856. The Huck Group recently purchased mii Fixture Group in January 2008 and has two other manufacturing facilities located in Albemarle, NC and Harrison, OH.

The Huck Group is a full service fixture provider. Each plant offers state of the art machinery, capable of producing stock or custom fixtures composed of wood, metal or a combination of both materials. In addition, The Huck Group offers a full suite of services which includes design, engineering, warehousing, freight, and installation.

Huck's reputation results from the excellent quality of their products. The Huck Group prides itself by engaging their workforce, thereby creating account management teams that manage projects from start to finish. Their portfolio includes many of the nation's leading retailers.

The Huck Group is a company rich in history, with over 150 years of manufacturing experience. Flexible manufacturing capabilities, product quality, and skilled account management teams are a few reasons why The Huck Group remains a leader in the industry. For more information, please visit [www.HuckGroupInc.com](http://www.HuckGroupInc.com).
